

Testimonials:

"I love the way that it saves me time, and I don't have to break my back throwing loads for back-up."

Roger Sanford
Cal Printing
San Jose, CA

"The EZturner definitely saves time turning jobs. The press helpers have an easier job now."

Jim Reutebuch
Excell Color Graphics
Fort Wayne, IN

"I Love It! Both of our shifts use it on a daily basis."

Mark Webb
Academy Press
Seattle, WA

"The EZturner has been a significant labor saver in our pressroom. It works especially well for cover and board stocks. You can turn a load over in seconds that would take much longer to do one handful at a time. I believe that the EZturner would be an asset to any pressroom."

Larry Schroeder
Graphic Center
Sacramento, CA

"The EZturner is working out great! It is doing everything I need it to do."

Greg Meyers
Palmer Printing
Waite Park, MN

"EZturner is one of the most cost effective additions we have ever made for our print shop. It has paid for itself in 90 days."

Dean Trew
Hurricane Office Supply
Lubbock, TX

SAVES TIME, MONEY & YOUR BACK

Benefits & Advantages

- Easy to use
- Turns paper piles up to 900 kgs, up to 120 cms high
- Turns a pile of paper in less than 30 seconds
- Simple design - no hydraulic or electrical motors
- Practically maintenance free
- Zero pressure on the paper pile (no offsetting)
- Affordable - will pay for itself in a few months
- Mobile - easy to move
- Handles up to 104 cms wide paper
- Reduces worker's compensation claims for back and wrist problems

A compact, user friendly paper handling device that reduces pile turning time by as much as 2000%.

The fastest load turner in the world. Reduces fatigue and injury to the press operators by eliminating slow and inefficient hand stacking.

Increases productivity and reduces paper waste. Turns the paper pile for the second side printing in less than 30 seconds.

The only paper turner with zero pressure on the load. Eliminates offsetting. Available for presses from 51 cms to 102 cms.

MODEL	FORK CLEARANCE	FORK WIDTH	MIN. PILE HEIGHT	MAX. PILE HEIGHT	MAX. PILE WEIGHT

EZ TURNER 40XL	13 CMS	53.4 CMS	88 CMS	120 CMS	900 KGS

Most print shops hand stack sheets for the second side printing, which can cause back and wrist injuries. Now, thanks to the EZturner, this operation can be done faster - under one minute with less chances of injury.

The EZturner is very simple to use. Due to its amazing design an operator can handle heavy paper piles with no stress.

Quick, easy, and inexpensive solution for aerating the load to blow out excessive powder and improve paper feeding.

Simple process for jogging the paper pile and taking out the miss fed sheets.

Increase production up to 30% with one press operator
